2024.10

CatEarCoin is a virtual currency designed for our 3D metaverse card mobile game. It not only functions within the game but can also be traded on external markets. Our team is dedicated to creating an open metaverse world and a continuously growing token ecosystem. Our goal is to make CatEarCoin easily accessible and enjoyable for more players, while ensuring its long-term value appreciation.

#### **Game Introduction**

Game Type: 3D real-time battle card game

Theme: Fantasy, Adventure

Game Modes: Single-player campaign, multiplayer online competition

Features: Open world, unique card system combining real-time combat with strategic planning,

providing players with a rich and engaging experience.

In this game, players not only enjoy thrilling adventures and battles, but they can also leverage strategic thinking and flexible gameplay to achieve victory. Through CatEarCoin, we aim to allow players to have fun while also gaining real economic benefits.

## **Token Allocation**

Allocate projects	Quantity	Percentage	Describe
game Economy	400,000,000	40%	Provided within the game
referendum	300,000,000	30%	Airdrop activity
marketing management	150,000,000	15%	Private equity and public fundraising to
			raise funds
platform operation	100,000,000	10%	Exchange operation
team	50,000,000	5%	Development team rewards
total	1,000,000,000	100%	

## CatEarCoin Issuance and Usage Plan

Total Issuance: 1,000,000,000 CatEarCoin

This amount may be adjusted based on usage and updates will be announced in advance.

The detailed release schedule post-lockup will be announced later.

#### **Current Project Status**

Currently, the CatEarCoin project is in the fundraising stage, and players can purchase tokens through Telegram. Please note that CatEarCoin is not yet listed on any exchanges, so it cannot be

bought or sold through exchanges at this time. However, we anticipate that CatEarCoin will be listed on exchanges within the next year.

We encourage players to invite friends to participate in purchasing and holding tokens for the long term. By actively engaging in the game and holding tokens, players can enjoy a rich gaming experience and potentially higher returns in the future. CatEarCoin holders will be able to participate in the game's economic ecosystem, enjoying both in-game rewards and privileges.

As the CatEarCoin ecosystem develops and the player base grows, along with game content expansion, the value of the token is expected to increase. Therefore, early participation and long-term holding of tokens will provide players with potential financial rewards. This is not only an investment in the gaming experience but also a commitment to future gains. We look forward to growing together with every player and building a more prosperous CatEarCoin ecosystem.

#### **Technical Architecture**

CatEarCoin is built on blockchain technology to ensure transparency and fairness in transactions. Smart contracts are used to manage transactions and reward distribution both within and outside the game.

#### **Security and Privacy**

We use advanced encryption technology to protect user data and ensure transaction security. In compliance with data protection regulations, we ensure the privacy of users is fully safeguarded. Our system is designed to provide a secure and reliable user experience.

# **Development Roadmap**

#### 1. January March:

Game Launch: Launch the 3D metaverse card game via Telegram.

Token Sale: Token sales will be conducted through Telegram and other channels to raise initial funds.

Small-Scale Voting: The community will participate in preliminary voting to discuss the in-game token economy and future plans.

Blockchain Token Integration: Officially introduce CatEarCoin into the game, allowing players to use tokens within the game and receive rewards.

#### 2. April June:

Large-Scale Voting: Expand community participation for major decisions, such as optimizing token distribution and community governance mechanisms.

Marketing Campaigns: Increase publicity through collaborations with gaming and blockchain media, expanding the reach and influence of CatEarCoin and the game.

Seeking Partnerships: Explore partnerships with NFT markets, payment service providers, and blockchain infrastructure providers to build a more diversified ecosystem.

# 3. July September:

Preparation for Exchange Listing: Complete negotiations with exchanges and legal compliance checks to ensure CatEarCoin can be listed on one or more exchanges.

Enhancing Token Liquidity: Ensure that sufficient market liquidity is in place when the token is listed, maintaining price stability.

Strengthening Community Engagement: Continue to incentivize community members to participate in the project's long-term growth by releasing more game and token-related updates and activities.
